

Neighborhood Suspicious Activity Report

This form is intended to assist neighborhoods in reporting suspicious activities. If you wish to report a crime rather than suspicious activities, as always please call 911 instead of using this form. As with any investigation, the ability of law enforcement agencies to respond may strongly depend on the completeness of your information. Not every report will generate a response, due to the nature of the information and legal limitations. Because Tucson Police Department responses to these forms may take 72 hours or more, please remember to use 911 where you need a rapid response.
